Professional Summary

Detail-oriented Frontend Developer with strong proficiency in HTML5 and CSS3, focused on building pixel-perfect, responsive, and accessible user interfaces. Experienced in converting Figma designs into clean, semantic, and well-structured code using Flexbox, Grid, and mobile-first principles. Skilled in ensuring cross-browser compatibility and maintaining consistent UI quality across devices. Possesses hands-on experience with React.js for building component-based user interfaces and managing application state. Familiar with JavaScript fundamentals, DOM manipulation, and basic routing concepts. Highly motivated, quick learner with a strong eye for design details and UI consistency.

Skills

- **Languages**: HTML5, CSS3, JavaScript (ES6+)
- **Frontend**: Semantic HTML, Responsive Design, Flexbox, CSS Grid, Media Queries
- **Frameworks/Libraries**: React.js (Components, Props, State, Hooks – useState, useEffect)
- **Routing**: React Router DOM (Basics)
- **UI & Styling**: Figma to HTML/CSS (Pixel-perfect UI), Tailwind CSS (Basics)
- **Tools**: Git, GitHub, VS Code, Chrome DevTools
- **Practices**: Cross-Browser Compatibility, Mobile-First Design, Basic Web Accessibility

Project Work

Portfolio Project | Link

- Designed and deployed a modern, fully responsive personal portfolio website to showcase projects and skills.
- Built clean and structured UI using HTML5, CSS3, Flexbox, and media queries for device responsiveness.
- Enhanced user experience with subtle CSS animations, hover effects, and smooth transitions.
- Implemented clear navigation and call-to-action buttons for improved usability and engagement.
- Deployed on Vercel with optimized assets and ensured cross-browser compatibility.

Sri Gayathri School Website | Link

- Designed and developed a visually appealing, fully responsive school website with a clean and professional layout.
- Implemented modern CSS techniques including Flexbox, Grid, and media queries to ensure smooth responsiveness across devices.
- Added subtle CSS animations and hover effects to enhance user experience without affecting performance.
- Focused on UI consistency, typography, spacing, and color balance to deliver a polished and user-friendly design.
- Deployed the project on Vercel with optimized assets and ensured cross-browser compatibility for reliable performance.

BharathOne – Multi-Service Platform | Link

- Designed and developed a multi-service web platform integrating AgriTech, EdTech, HealthTech, and GovTech modules.
- Built a clean, modern UI with structured layout using HTML5, CSS3, Flexbox, and CSS Grid.
- Implemented full mobile responsiveness using media queries for seamless experience across all screen sizes.
- Enhanced visual appeal with smooth UI transitions, hover effects, and consistent design patterns.
- Deployed the application on Vercel and ensured cross-browser compatibility with optimized performance.

Education

SV Degree College ,Tuni Bachelor of Science in Computers - [Pursuing]	2022 - 2026
Sri Chaitanya Junior College , Tuni Intermediate , MPC	2020 - 2022
Narendra EM School , Tuni SSC [10TH Class]	2019 - 2020

Certifications

Generative AI Mastery Workshop – **NxtWave x OpenAI** Academy
(Completed as part of India's Biggest GenAI Buildathon, Sep 2025)
